SUMMARY

Full Stack Developer with knowledge of HTML, CSS, JavaScript, PHP, and MySQL. Experienced in developing responsive websites, creating user-friendly interfaces, and managing database connectivity. Passionate about learning new technologies, building real-world projects, and enhancing problem-solving skills through practical development.

SKILLS

- HTML-CSS
- Bootstrap
- javaScript
- VS Code
- Git/Github
- XAMPP
- PHP
- C Lang
- C++
- ProjectManagment
- Leadership

WORK EXPERIENCE

Web Development Internship– Red & White **JUL 2026 - PRESENT**

Worked on web development projects using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL. Developed responsive and user-friendly web pages and applications while gaining practical experience in frontend development and database integration. Strengthened problem-solving and debugging skills through real-world projects.

School Clerk — 2 Years Experience **JUN 2025– PRESENT**
[M.G bhuva knya vidhya mandir] |

Managed school administrative tasks, student records, documentation, data entry, and daily office operations. Assisted staff, students, and parents while maintaining accurate records and smooth office coordination.

EDUCATION

V.N. Borad College, Junagadh,B.C.A. – COMPUTER APPLICATIONS 2024 – Present

Sardar patel High School, Junagadh,12TH (HSC) |91% 2023

Sardar patel High School, Junagadh,10TH (GSEB) | 78% 2021

Projects

HTML Projects | [Live Project]

Built a fully responsive and semantic web interface using advanced HTML5 standards, ensuring clean code architecture, smooth cross-browser compatibility, and intuitive user navigation.

CSS Projects | [Live Project]

Designed visually engaging and modern layouts leveraging advanced CSS3 styling, Flexbox, Grid systems, and custom animations to elevate overall user experience.

Bootstrap Projects | [Live Project]

Developed a responsive web application utilizing Bootstrap components, layout utilities, and grid systems for optimal viewing across mobile, tablet, and desktop viewports.

C Language Projects | [Live Project]

Engineered efficient C programs implementing core programming concepts including modular functions, multidimensional arrays, control structures, and optimized logic for performance.

C++ Programming Project | [Live Project]

Developed an object-oriented time conversion application utilizing advanced C++ programming constructs, algorithmic logic, and clean code principles.

ACHIEVEMENTS

3rd Rank – Teachers' Day Account Activity | 2021

Regularly participated in Teachers' Day activities held on 5 September, securing 3rd Rank in the Account (A3) Activity and receiving a Medal and Certificate of Achievement.

CCC – Course on Computer Concepts | 2024

Successfully completed the CCC (Course on Computer Concepts) certification, demonstrating basic knowledge of computer operations, internet usage, and digital applications.

College Web Development Event – Certificate of Participation

Participated in a college-level Web Development Event and received a Certificate of Participation for active involvement and project presentation.

Generative AI Software Development – Certificate | LINK

Successfully completed a Generative AI Software Development program and received a certificate for participation and completion.
